# Create a One-Minute Video for #BHCCshares

To make a 1-minute video using your webcam, log in to Techsmith Relay at bhcc.techsmithrelay.com and click on "Launch Capture." Be sure to use #BHCCshares as the title of your video!

STEP BY STEP DETAILS (watch a video – or follow along below)

1.Open Google Chrome (recommended browser) and log into your Techsmith Relay account by going to "bhcc.techsmithrelay.com".

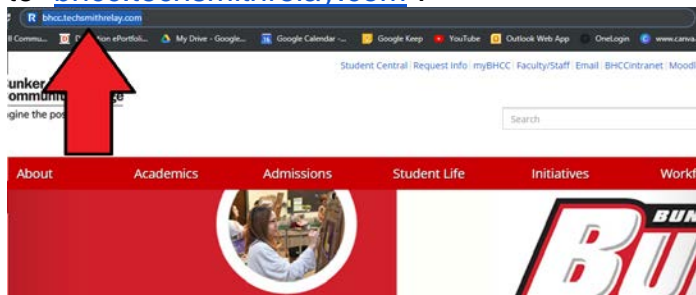

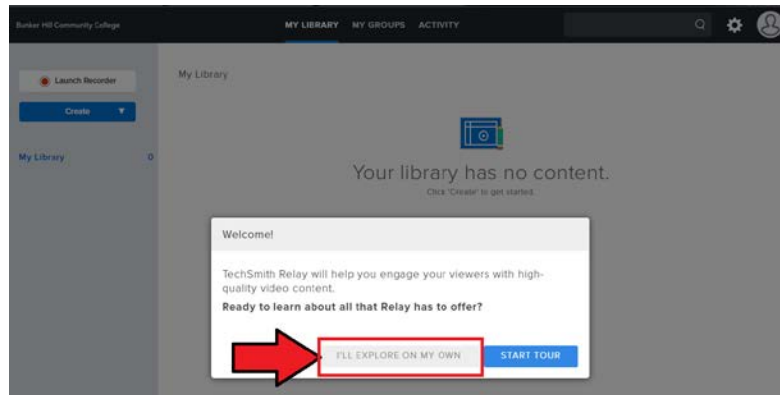

2.Click the blue "Sign In" button, on the middle of the page.

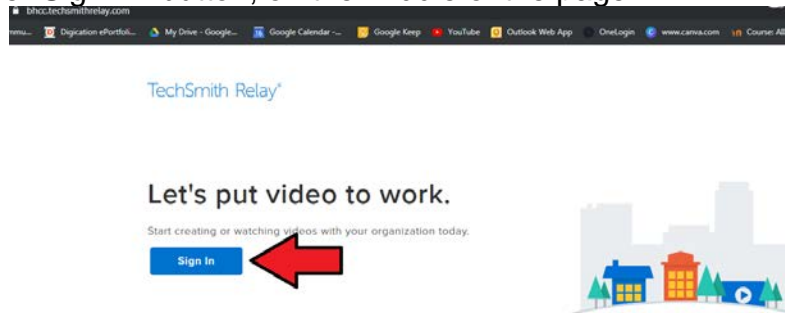

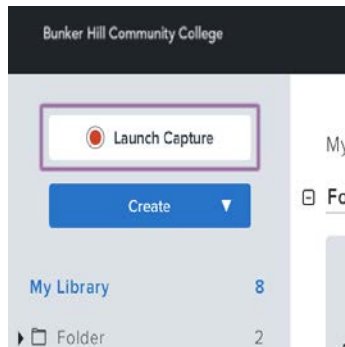

3.Type your BHCC login credentials.

4. If it is your first time logging in, you may see a "Start Tour" option - go ahead - or choose "Explore on my own."

5. You are now in your Techsmith Video Library. Any recorded videos you create will appear here. To begin recording a video, select the "Launch Capture" button on the left-hand side of the screen.

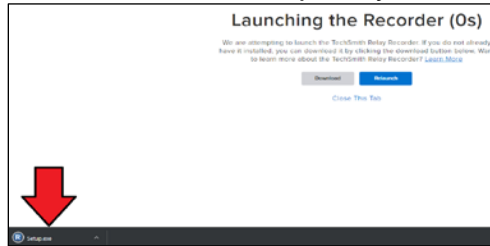

6. Click the "Download" button in the middle of the screen.

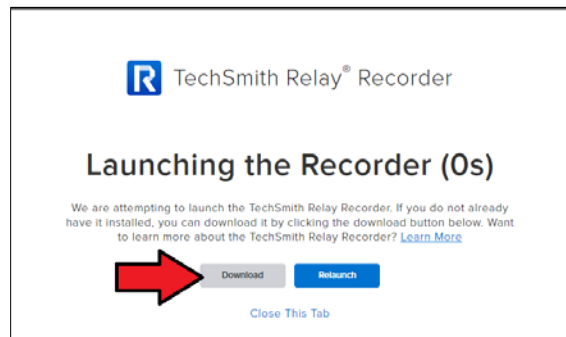

7. This will download a "Setup.exe" file that will allow you to install the application. Once

it has successfully downloaded, the Google Chrome browser will display this file at the bottom left of the page. Once the file has completely downloaded, select and open it.

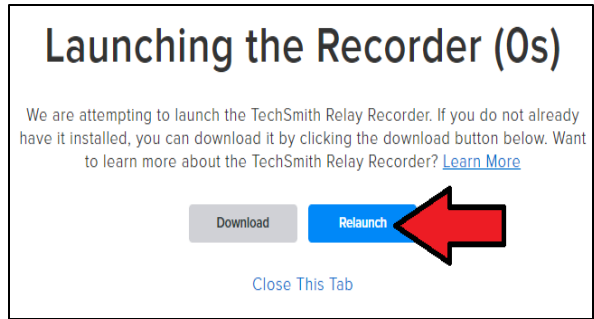

8. Select the "Run" option in the pop up window to allow the device to make changes to your device.

---

9. Once the installation is successful, you will see a screen pop up that states "Installation successful". Click the blue "OK" button in that window.

---
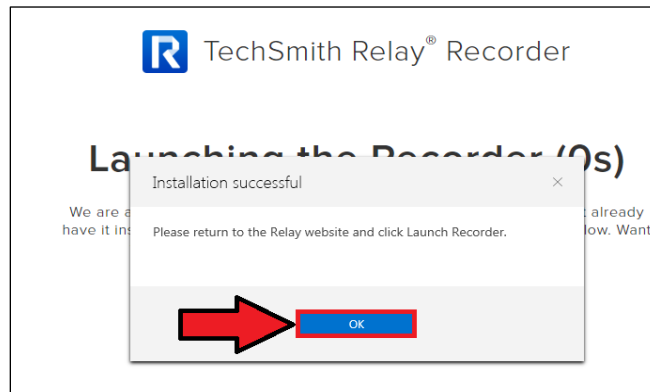

10. You must now select the blue "Relaunch" button in your Techsmith window.

Launching the Recorder (0s)

We are attempting to launch the TechSmith Relay Recorder. If you do not already have it installed, you can download it by clicking the download button below. Want to learn more about the TechSmith Relay Recorder? Learn More

If it's easier to make a video using your phone - check out the [online instructions](#) or use or step-by-step details below.

Step 1: <mark>Download the Techsmith Fuse App</mark> on your smartphone or mobile device. These instructions are for iPhone. There will be a different but similar process for Android phones.
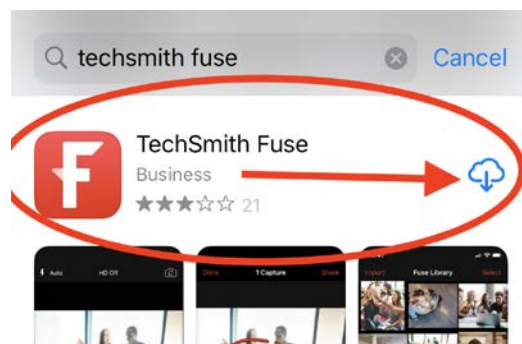

Step 2: <mark>Log in to Techsmith Relay</mark> at bhcc.techsmithrelay.com.

Do this on your computer. On your "My Library" screen, <mark>click the blue "Create" button</mark> on the left-hand side.
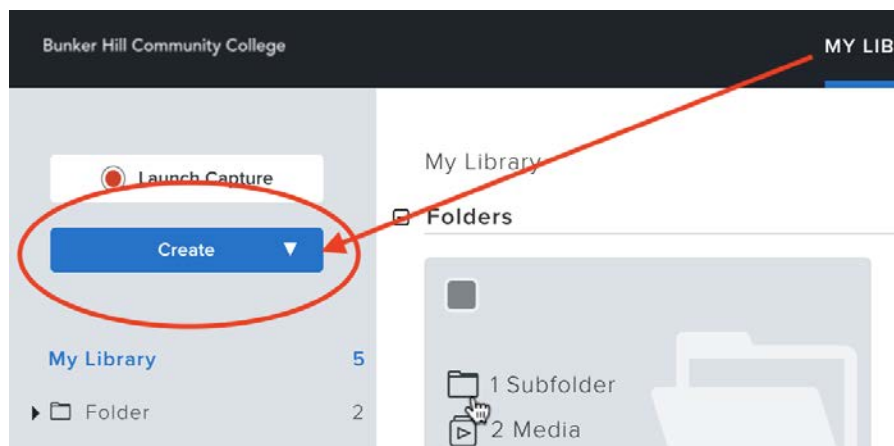

In the menu that drops down, <mark>click "Connect Mobile Device."</mark>
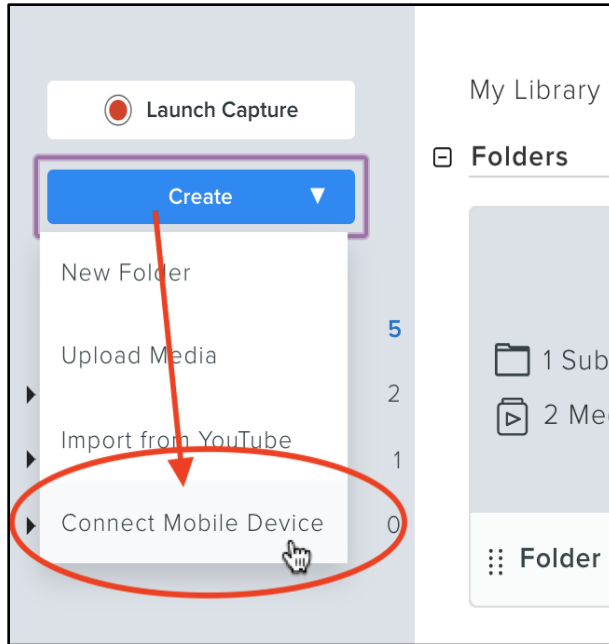

You will get a window that asks you to scan a QR code with Techsmith Fuse.

Step 3: Set up the Techsmith Fuse app on your smartphone.

Once the app has finished downloading, select "Open."
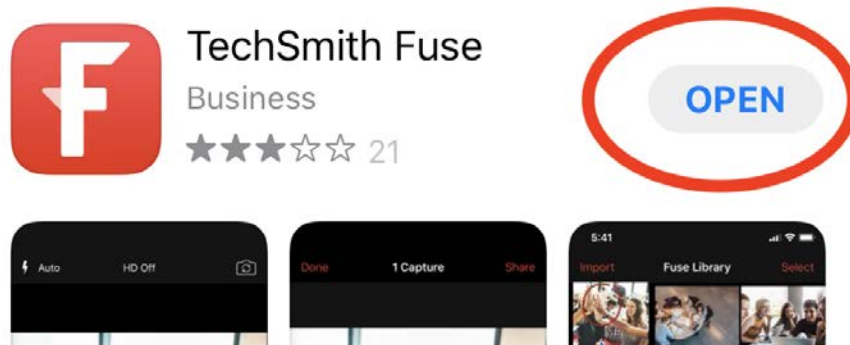

When Fuse requests access to the camera, click "OK"
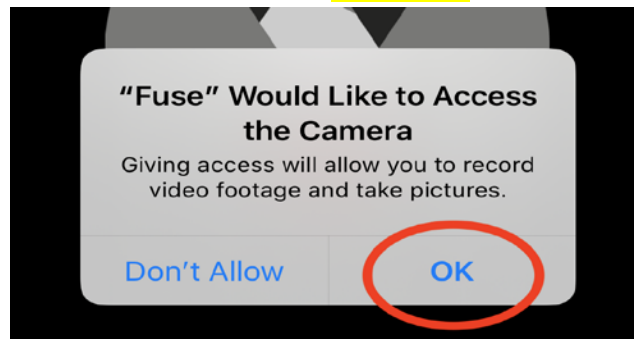

Do the same for the microphone.
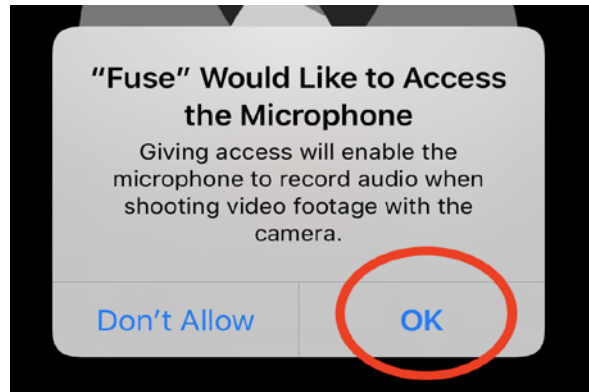

Next, select the "x" at the top of the screen to close the tutorial.
On the next screen, at the bottom, select "Library."

Then select "settings."
Select "Techsmith Relay."
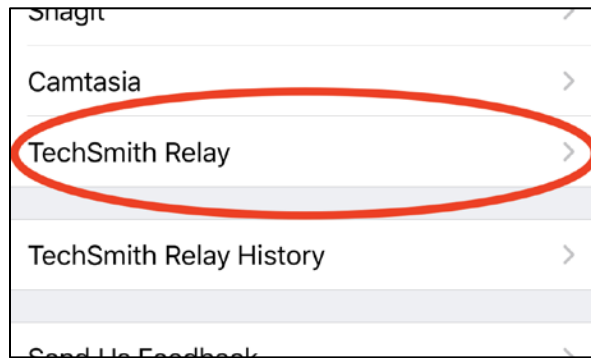

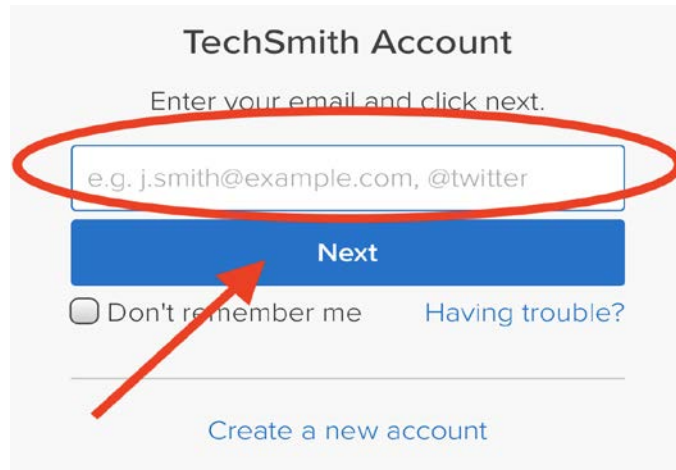

Select "sign In."
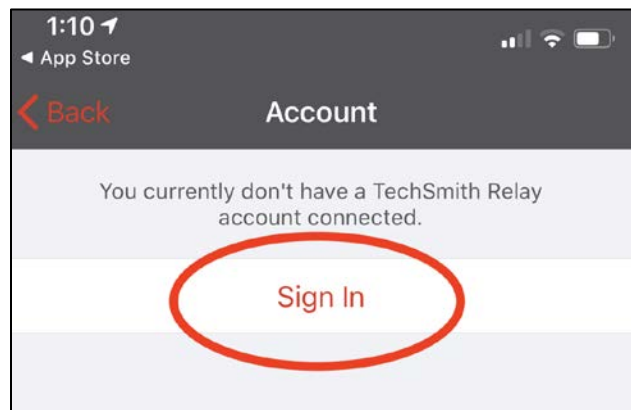

Point the blue box at the QR Code on your computer screen.

Enter your BHCC email and password
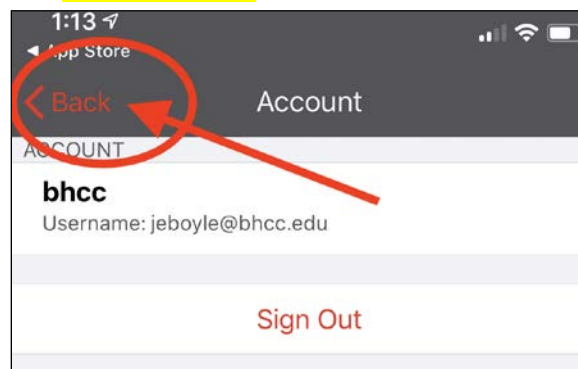

"

When you see this screen, select "Back."

Your phone is now connected to yourTechsmith Relay account.

Go to your Fuse Library and select the camera icon to record a new video in Techsmith Fuse.
Select the icon in the upper right to switch to your front-facing camera.
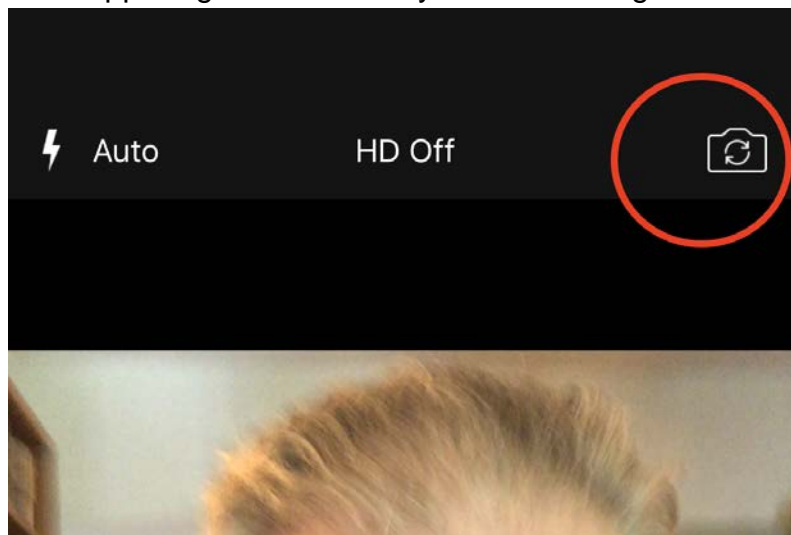

Select "Video" at the bottom to start recording.
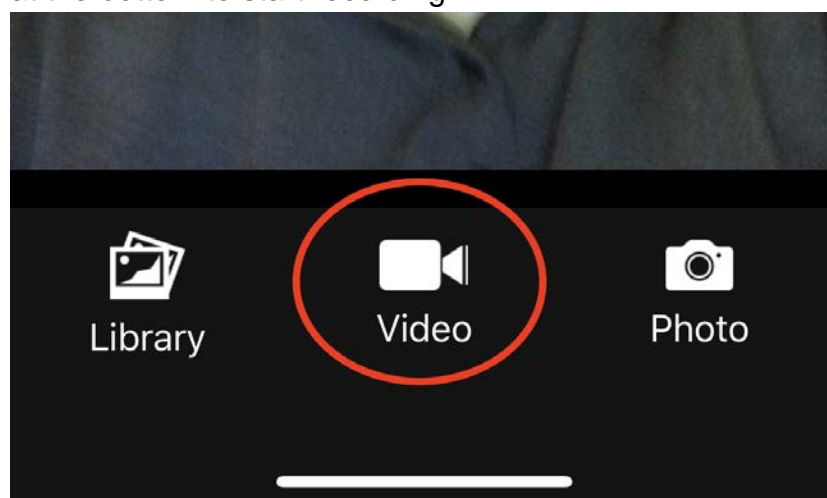

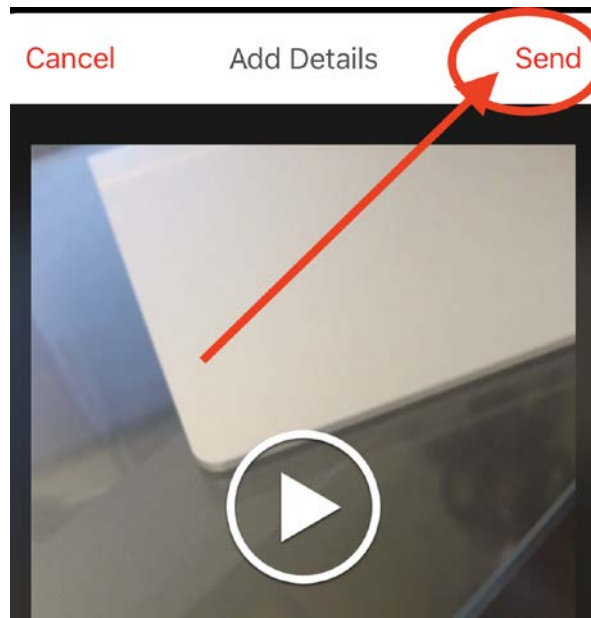

When you are done recording, select "Done."

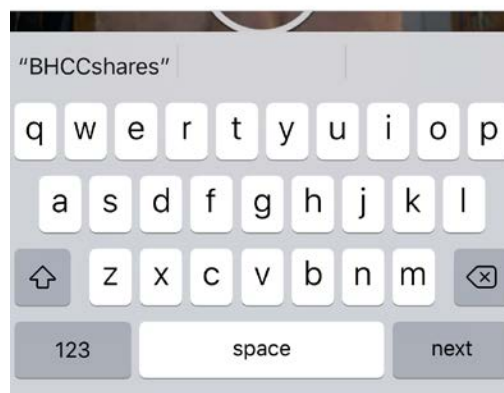

Select "Share" at the upper right.

<mark>Select "Techsmith Relay."</mark>
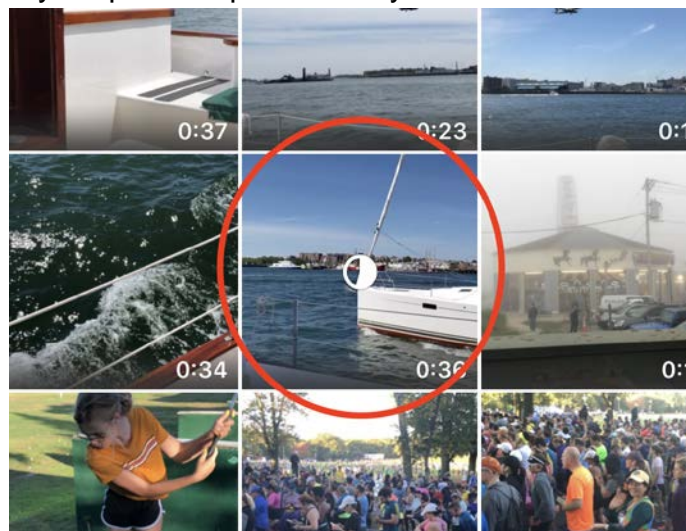

Select "Send."

When you finish, be sure to use #BHCCshares as the title.

You may prefer to use your phone's regular video camera to record your video. If so, do that first, then select "Import" in the upper left to upload a video from your phone.

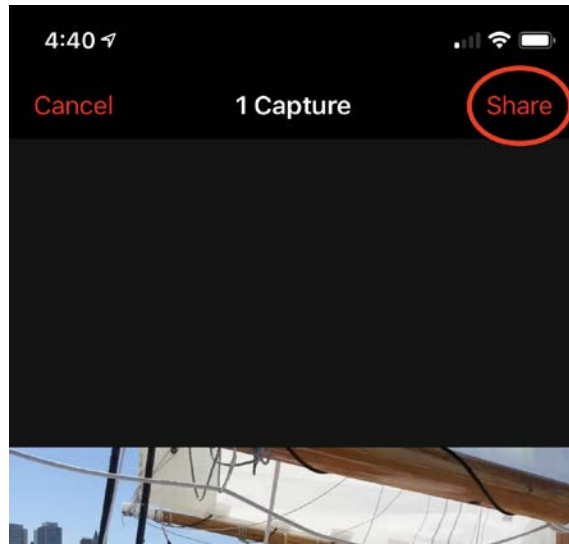

Select the video from your phone's photo library.

Select "Choose." The video will compress.

After the video has compressed, it will appear in your Fuse library.Select it, then select "Share."
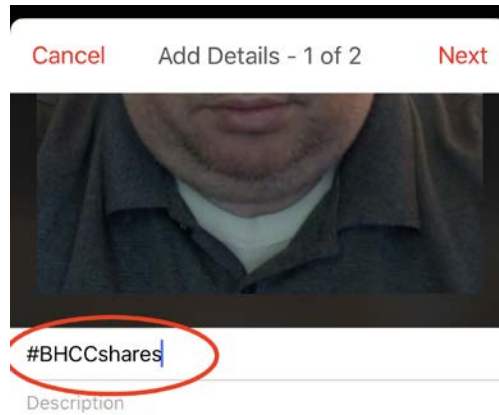

Select "Techsmith Relay."

Select "Send."

When you finish, be sure to use #BHCCshares as the title!!!
