RE: Student Policy on COVID-19 Vaccination

Date: November 1, 2021

In September, the community college presidents announced a system-wide vaccine requirement for students and employees set to take effect this January. This requirement is in place to increase the health and safety of our campuses' learning and working environments in the face of a continued public health crisis while acknowledging that many of our students have been disproportionately impacted by the pandemic.

Today, we are pleased to share the student policy on COVID-19 vaccination effective for all 15 community colleges, which in general requires students accessing campuses and enrolling in face-to-face or hybrid classes to provide written proof of full vaccination. This policy allows students who are not prepared to become vaccinated to register in fully online course offerings and access remote services. The Policy and Frequently Asked Questions (FAQ) are published on the BHCC website.
